Looking for a Portfolio Career?

The Modality Training Academy provides specialist training for primary care clinicians, delivered in community settings by primary care clinicians.

We offer a range of bespoke training programmes designed for GPs and nurses, our training is delivered by highly experienced GPs (GPwER) and Nurses with extended roles who have been delivering specialist community services for many years.

Our ultimate goal is to equip the primary care workforce with the knowledge and practical experience required to go on to work within an extended role.

Over the past 10 years, we have successfully trained more than 50 GPs with extended roles and 10 nurses specialist nurses, the majority of whom now hold portfolio careers delivering both generalist and specialist care.

Our expertise covers a broad range of specialties including dermatology, aesthetics, rheumatology, gynaecology, ENT, cardiology, urology, respiratory medicine, ophthalmology, orthopaedics, gastroenterology, paediatrics, occupational health and minor surgery.

We provide training for individual clinicians who wish to develop themselves, **Clinical Commissioning Groups (CCGs)**, **Sustainability and Transformation Partnerships (STPs)** and **Health Education England (HEE)**.
